Prosecutors from Office of the Prosecutor General in Bamberg and Bamberg District Prosecutors Office in Germany visited Taiwan High Prosecutors Office and Intellectual Property Branch for a three-day internship starting March 2, 2026.

The two prosecutors, Florian Kratzer from Office of the Prosecutor General in Bamberg-Bavarian Central Office for the Prosecution of Cybercrime and Moritz Schuderer from the Bamberg District Prosecutors Office, visited Taiwan High Prosecutors Office and Intellectual Property Branch(THPO) for a three-day internship from March 2 to 4, 2026.

The reciprocal internship program between THPO and the Bamberg prosecutor' s offices has entered its third year. This year, two prosecutors from Bamberg have arrived in Taiwan for a one-month exchange program. During their three days at our office, we arranged a series of comprehensive briefings and visits to enhance their understanding of our core operations. These included introductions to: General Operations and Intellectual Property, Citizen Judge Cases, Drug Enforcement and Drug Rehabilitation, Fraud Prevention, Environmental and National Land Conservation, and National Security. Furthermore, the itinerary featured visits to the High Tech Crime Investigation Center (Digital Forensics Center), the Electronic Monitoring Center, and the Judicial Building, where the THPO First Office is located. They also visited Intellectual Property and Commercial Court. We hope these activities provide the two prosecutors with profound insights and benefit their future work.
